FROM YOUR SHOW CHAIR -

Doris Asher

I want to thank all of you who contributed to our recent Orchid Show! What a big job! And what a nice event we put on for the public! Whether you clerked or brought in food or helped exhibitors unload or gave money toward the expenses or taught a class or provided orchids for our exhibit – however you helped, every piece was important, and I thank you for what you did on behalf of the Show!

A project as massive as this does not happen without a lot of helping hands. Thank you for lending the Society your helping hands!

Dot received this letter the day after our orchid show. It is being published here in lieu of the President's Message.

Dear GLOS-Folks,

I just wanted to send a note to let you know what a wonderful expo you had Saturday, February 27.

My friend, Debbie, and I drove up from the Detroit area Saturday. She had never been to an orchid show before and was simply flabbergasted by all she saw. It was soon abundantly clear why we needed our little wagon.

Mike was the first to greet us at the door. As he moved around the various showroom venues he would see us and check in to make sure we were having a great time. We were. Absolutely everyone we met—from the ladies at the re-sale book table, to the vendors, to the fellow patrons—were so incredibly warm, inviting and helpful. It's amazing to see what happens when you get people with a common love and interest together.

We thank your numerous members who invited us to join GLOS.

The next time we come, we'll know to pack a picnic lunch. We ended up walking a mile to town, so as not to lose our plum parking space—only to have to sit down at a restaurant, notice the time and leave hastily without ordering because we didn't want to miss Dea's potting class. It was worth the power walk. She is such an interesting instructor.

As my friend, Debbie and I wheeled our little wagon about collecting every plant we couldn't possibly live without, so many people commented on what a good idea it was to have one. We saw so many people laboring with their bulky bundles. It makes us think next year, you'll have wagons of all shapes and sizes. Debbie wondered if it might not be helpful for the patrons, vendors (who would undoubtedly sell more items if people have a way to cart them about), and space on the venue floor if you offer small shopping cart rentals at future events. The small carts at many grocery stores that are compact and have two levels would be perfect. You would have a uniformed, manageable size that's easy to maneuver with plenty of room for goodies.

Just a thought.

Either way, we both just wanted to say you put on a Grade-A event. Truly. We know it takes so many dedicated volunteers to put on a two-day event like this. We just wanted you to know your hard work was noticed and absolutely enjoyed.

All the best,

~Paula and Debbie

UPCOMING SHOWS

We have 2 upcoming local shows. First is the Ann Arbor Orchid Society Show on March 19th and 20th at Matthaei Botanical Garden. The second is the MOS Show April 23 and 24th in Madison Heights (Note-not on Palm Sunday this year). Keep these shows in mind as you look over your plants that did not come into full bloom in time for the GLOS Show.

We do need help with the MOS Show. Is there anyone who wants to design and set up the display? Or anyone willing to take a small pre-designed basket display down to the show on Friday, set it up and get the plants registered? Please let me know.

Thanks

Jerrie Nichols

LEO SCHORDJE began growing orchids while he was still in high school. Initially he grew on windowsills. His small 25 plant collection followed him as he moved from place to place while in college at UW-Madison. Leo is currently retired from running a one man Quality Control Lab at a small manufacturing plant for a major chemical company. Leo began his orchids speaking career in 1992 speaking at the Paphiopedilum Guild meeting hosted by NCOS, at the National Arboretum in Washington DC. He does a few talks a year, mostly in the Mid-West to orchids societies, has spoken in Anchorage, Denver, and Atlanta, so he does get around from Coast to Coast. His collection is about 1000 plants, raised under lights, in his basement. His collection is about 40% Paph, 30% Phrags, and the rest is a mix of other species.

Today's talk will be "Building an Ever Blooming Orchid Collection" which will be about how to build an Ever Blooming Collection, without having to acquire a large number of plants. He will also survey some species and hybrids capable of meeting the criteria for an ever blooming orchid. His talks tend to be informal, and questions are encouraged. There is a handout available that contains the information in the talk and some additional supplemental information. In an effort to conserve paper, no copies will be printed, it will appear in the newsletter and is available for download through the link on the index page of his website; <http://www.leosorchids.com> There also is a Java script link that will assemble his email address on the website, if you would like to email him before he leaves home the day before the talk. You can also call his cell, (847) 309-3821 for voice or text. The java script link helps keep down the spam.

Leo is a hobby grower, every plant he grows is grown in a light garden. He will be bringing for sale divisions of his personal plants, & a few seedlings, from an assortment of genera. The assortment will include Paphs, Phrags, sequential blooming Paph hybrids, the Phrags will most likely be divisions of awarded clones of Phrag Inca Embers (have 5 different awarded clones), Phrag Cardinale (2 clones), or non-awarded but select clones of other Phrags. Call ahead if you are interested in a near blooming size division of Phrag kovachii. He will bring a few Psychopsis seedlings or divisions, Masdevallia, Pleurothallis, Restrepia are all possibilities, maybe a Lycaste or two, possibly some Laturia Dendrobiums, and what ever else he can find in his own collection. He will not be importing plants from Hawaii for re-sale, you have all seen enough of what Hawaii offers at your shows.

Because everything is a "one of", and he won't know what he will be bringing until he loads his car, there is no pre-sale list. For the serious Sobralia collector, Leo will bring his one and only piece of a nearly 7 foot tall Sobralia roezlii at least 6 growths, in a 10 inch diameter pot. Small 2 foot tall divisions of S roezlii from Ecuagenera cost over \$50 to obtain. Leo will sell this near blooming size Sobralia roezlii for only \$95. It has become too large for his light garden (you think?). Call and reserve the Sobralia if you are interested. He will only put the Sobralia in the car if there is a call expressing interest.

Leo will also have some 1 or 2 pound containers of the K-Lite version of MSU Orchid Fertilizer available for sale also. See Rick Lockwood's article in March 2013 issue of Orchids Magazine. This is the fertilizer Bill Argo, from Blackmore formulated to meet Rick's formula proposal. All the lesser macro and micro nutrients of MSU formula, in the 13-1-1 formulation developed by Rick Lockwood.

REMINDER: WEAR YOUR SOCIETY NAME TAG

A message from the GLOS Membership Committee (Doris Asher, Chair; Dot Potter Barnett, Member)

Your Society's Membership Committee has changed the way we handle the GLOS name tags -- members are responsible for their own name badges.

As an incentive to wear the name tag, which is very nice for visitors and for those of us with failing memories (!), anyone who wears the badge AND purchases even one raffle ticket at \$1.00 per ticket will get a complimentary raffle ticket.

Wear your badge to the meeting. Let's help everyone greet everyone by name by wearing a name tag.

Wear your badge. Get an extra raffle ticket!

If you cannot locate your name tag, please let Doris or Dot know. Dot will make you a new one.

ORCHID TIP:

When you don't have OrchidWiz and want to know the current name of a genus/species, Kew has a webpage that will help:

<http://apps.kew.org/wcsp/prepareChecklist.do;jsessionid=4AF6B8DF3D4440DD2C8C09D4793F8408?checklist=monocots%40%40287141020111825425%C2%A0%C2%A0>

For instance, type in *Maxillaria tenuifolia* into the search box, and you will learn that this is now called *Maxillariella tenuifolia*.

REPORT: GLOS AT GRAND VALLEY OS SHOW - submitted by Carol Ann Stuht

The January weather was feeling bipolar for the GVOS show January 16-17. Friday, set up day for Pete Ostlund, Diane Zoellner and myself was warm and quiet, lulling us into a false sense of security. Sunday it was downright freezing for Pete, Michael Bukula and me returning everything to Lansing. Actually, it was a bitter 13 degrees at 5pm. In-between, the show itself was beautiful and well attended, especially on Saturday. GLOS had a 25 square foot corner with lots of natural light. Our plant arrangement earned the society a blue ribbon in class 5.

Plants for the show were collected at Marilyn Lee's, and Dot Barnett's homes.

Seven GLOS members contributed 24 plants for our display.

Thank you everyone that helped in any way to get this display to and from Grand Rapids. The blue ribbon is yours.

REPORT: GLOS 2016 ORCHID SHOW - Submitted by Dot

With Pete Ostlund's expertise and guidance, Pete, Larry Watson, Kherwin Cheng Chua and Dot Potter Barnett organized and finessed our award-winning display. Everyone who submitted plants for the display won at least one ribbon. Thank you, all who participated in any way to make our show a success.

We hope all our members had a chance to not only see our show, but also participate in some way. Putting on a show of this size is not only difficult, but very rewarding, especially when we receive thanks like the letter on page 2 of this issue. We hope future shows sees participation by all our members. Thank you!

THANK YOU, CLERKS - Doris Asher, Chair of Judging Activities

The Society issues a hearty "thank you" to members and other friends who volunteered to clerk at the Show. Clerks assist the judging teams in finding the plants entered in the class, preparing the ribbons for the winning entries, placing the ribbons on the winners, and recording the winners in the Society's official record. They began on Saturday morning, February 27th, at 7:30 a.m. with a light breakfast and worked until ribbon judging was concluded, about 11:00 a.m.

Judging Chair Lynn O'Shaughnessy assigned the 16 judges into seven teams. We were very pleased to have judges from the Mid-America (St Louis), Cincinnati, and Chicago Judging Centers working with us this year. All judges and clerks were invited to be the Society's guests at the Judges' Luncheon held at the Show.

The following individuals clerked at our 33rd consecutive orchid show:

Leslie Behm * Dea Bishop (lay judge) * Michele Bridges * Michael Bukala * Bill Cadman (lay judge)
 * Kherwin Cheng Chua * Jim Churn * Janis Erins * Teresa Fowle * Norm Goebel * Sylvia Heaton
 * Michael Henderson * Mary Henman (Photography) * Dawn Kittle * Deb Longworth (Orchids in Use)
 * Ann McConnelee * Mary Jo Miller * Pete Ostlund * Tammy Scherer * Jack Shumaker (lay judge) *
 Ioana Sonea * Carol Ann Stuht (Art) * Becky Thayer * Emily Tseng * Mike Underwood (lay judge) *
 Larry Watson Jr * Jill Wood

Thank you!

MEMBERSHIP YEAR DRAWS TO A CLOSE - submitted by Doris Asher, Membership Committee Chair

Since the Society's fiscal year runs from July 1 to June 30 of each year, it is getting to be time to renew your membership by sending in your annual dues – \$8.00 for an individual plus an additional \$4.00 for each additional household member. For members who want to save significant dues over time, the Society offers a life membership for a one-time payment of \$80.00. Thirty-seven people have already taken advantage of the life membership.

Please make checks payable to GLOS and send them to Treasurer Ioana Sonea, 3740 Chippendale Drive, Okemos, MI 48864.

Thank you for sending in your dues prior to the deadline. We do not want you to miss even one issue of The Calypso. So far, 36 households (39 individuals) have already paid their dues for the coming year; we need to hear from 50 households (60 individuals) who have not yet renewed. Please consider receiving your newsletter electronically at no cost to the Society. Or, perhaps you could make a special donation to help offset the expense of photocopying and mailing – each issue costs GLOS \$1.09 to provide in hard copy for a total cost per year of \$6.54. Help the Society keep its dues low!

(Members who have already paid for the coming year have their names highlighted in yellow on the mailing label on this issue. Such members do not need to pay at this time. If you get your Calypso electronically, Dot Potter will let you know if you have already paid or if you still need to do so when she sends the newsletter to you.)

ORCHID CARETAKER NEEDED

GLOS member Linda Rigas is looking for someone to water her orchids for hire when she is on vacation from time to time. Linda reports that she has "low maintenance orchids – nothing complicated". She lives on Dickens Way in East Lansing. Email: lrigas@comcast.net. Phone: 517-575-0476.

SELLING ORCHIDS AT GLOS MEETINGS:

Perhaps a plant has outgrown its home, maybe you have a division to share, occasionally you may find a plant doesn't bloom for you or like your conditions, possibly you need to make room for something new, or you just no longer want a certain plant.

Whatever the reason, the Raffle and the Silent Auction Tables are great places to share your no-longer wanted orchids with fellow society members.

Please keep in mind, however, that shared plants should be healthy, free of diseases and insects, and be generally well-cared for. Just as you wouldn't want to take home a sick plant, neither should you expect others to accept one. Such plants are better off becoming a part of a compost pile than potentially passing on its ailment(s) to another's collection.

The Society does have a responsibility to not allow diseased or insect-infested plants to be distributed at our meetings.

However, we all take great pleasure in finding, growing and blooming treasures from the Raffle and Silent Auction Tables.

GLOS Advertising Policy

Commercial members may advertise their orchid businesses in the Calypso at no extra charge. Ads will appear as space is available and in the order they are received. Advertisers are responsible for preparing their ads. Standing Ads size should normally be 2" x 3" but exceptions may be made for special events. Submissions will be considered a one-time-only unless designated as standing ads. Please check the stated deadline for submission to any Calypso issue. Submissions may be made via email or regular mail.

Non-commercial members may also advertise orchid related items in the Calypso under the above conditions.
